

SVS Sanlam Fixed Interest Fund

A high-conviction portfolio investing in corporate credit. Typically, at least 80% of the Fund will be invested in investment-grade bonds with any non-GBP-denominated bonds hedged to sterling.

Launched in May 1995 the Fund aims achieve a high income through investing primarily in a variety of investment grade fixed interest instruments without geographical restriction and preference shares in UK and European community companies.

The fund

- Targets high income.
- Invests across a wide range of investment-grade bonds, including many household names.
- Seeks to balance credit, interest rate and liquidity risks judiciously.
