

Sanlam FOUR rebrands to Sanlam Investments

Why Sanlam FOUR rebranded to Sanlam Investments

Sanlam FOUR, Sanlam UK's boutique investment arm, has today announced that it will operate under the Sanlam Investments brand effective 12th November 2018.

The FOUR business was formed in 2006 and following an initial investment by Sanlam in 2009, was acquired in 2013 and renamed Sanlam FOUR. Today, with over £5.3bn in assets under management in the UK, Sanlam Investments brings distinctive asset management expertise across a range of active strategies encompassing traditional and alternative asset classes.

Sanlam Investments is a brand with strong connections to its parent company in South Africa. As the largest non-banking financial services group in Africa, Sanlam manages £49bn of assets for clients across the globe. Having the backing of a business that has a 100-year heritage in financial services gives us the confidence to take a long-term view. Our core principles remain unchanged in continuing to deliver a value-added, differentiated proposition for our clients.

We firmly believe that our well-established strategy of employing highly experienced individuals, who thrive within the culture of a multi-boutique firm while always putting clients at the centre of our thinking, will only be enhanced by closer links to the Sanlam Group and we look forward to the next stage in our development.

Moving forward as a leader in Asset Management

Sanlam Investments recently broadened its proposition, which includes multiple award-winning Global Equity and Multi-Strategy capabilities and a top performing US Dividend equity team - by adding the Sanlam Real Assets Fund to the offering, investing in liquid real asset securities.

The new brand, with a fresher, more contemporary identity, will enable Sanlam Investments to be aligned and more integrated within the newly rebranded Sanlam UK.
