

Two Sanlam Investments funds earning five FE Crowns

FE's bi-annual crown ratings reshuffle has taken place, with two Sanlam Investment funds achieving five crowns in the process. The ratings apply to funds with at least three years of history and are designed to help investors identify funds that have excelled in terms of stock picking, consistency and risk control.

The rebalancing takes place every January and July, with the top 10% of funds awarded five FE crowns. We are therefore delighted to see our Sanlam FOUR Multi-Strategy Fund and Sanlam FOUR US Dividend Fund achieve this rating. Both funds join our Sanlam Global High Quality Fund, run by Pieter Fourie, which has held the FE five crown rating for some time.
