

SVS Sanlam North American Equity Fund

Providing exposure to underappreciated growth utilising a thematic framework with the added benefit of AI-enhanced stock screening.

The Fund aims to achieve long-term growth of capital primarily through investment in securities quoted on markets in North America. In order to achieve the Fund's objective, the strategy invests in a wide range of companies, large and small, which reflect growth opportunities in various sectors of the North American and global economies.

The fund

- Invests primarily in North America.
- Managed by a highly experienced team.
- Focuses on growing companies trading at a discount to their intrinsic value.
