

Sanlam Multi-Strategy Fund

Combining thematic and systematic investment strategies aimed at absolute positive return and income distribution from a portfolio of real assets,

The fund was launched in January 2013 to provide investors with access to our multi-strategy capability. It is a diversified fund that combines thematic and systematic investment strategies aimed at absolute positive return and income distribution.

The fund:

- Brings together a diverse range of asset classes focused on absolute return
- Is structured to participate when markets are rising while offering protection in falling markets
- Is managed by a highly experienced team with an award winning track record
