

Sanlam Global Artificial Intelligence Fund - A unique investment process

Only by doing things differently can one truly yield different results. The Sanlam Global Artificial Intelligence Fund uses a unique, proprietary AI platform to identify suitable companies. Chris Ford, fund manager, explains this process and how it's used to seek out true alpha.

Recorded during a Sanlam Business Breakfast at Home event.

Fund Risks

The Fund may invest in shares of companies listed on stock exchanges in the United Kingdom, and outside the United Kingdom, exchange rate fluctuations may cause the value of investments to go down as well as up. Investing in companies based in emerging markets may involve additional risks due to greater political, economic, regulatory risks, among other factors. The Fund may invest in derivatives for the purposes of efficient portfolio management and hedging.
