

2019 Private Asset Management (PAM) Awards

Sanlam UK secures 'Investment Performance: High Growth Portfolios' award win at the 2019 Private Asset Management (PAM) Awards

Sanlam UK, part of the international financial services group Sanlam Ltd, last night scooped the 'Investment Performance: High Growth Portfolio' award at the annual Private Asset Management (PAM) awards. It is the second year running Sanlam UK has won in this category.

The awards have recognised excellence in the UK wealth management sector for more than 20 years and are widely regarded as one of the industry's most prestigious awards. Entries were judged by a panel of leading independent experts from across the private client advisory and related professions, and recognise the consistency of both investment performance and client service levels.

Sanlam UK also achieved the feat of being a finalist in every single Performance Award category - Cautious, Defensive, Growth & High Growth - the only company to achieve this feat on the night and indeed in the last 10 years of the awards.

Additionally, Sanlam UK was a finalist in the Total Wealth Solution category, recognising those firms delivering holistic advice and solutions to HNW clients in preserving and enhancing their wealth.

Penny Lovell, CEO of Sanlam's Private Office, said:

"To win the Investment Performance: High Growth award once is a huge honour, but to win it twice is truly remarkable. This accolade, as well as the extensive categories in which we were a finalist, highlights not only our strong investment credentials, but the consistent high quality of service we provide for high net worth and ultra-high net worth individuals.

"Our Private Office is dedicated to meeting the needs of these clients, both in terms of their investment ambitions as well as their service requirements, and a significant award such as this reflects the hard work and client-centricity of teams from across the Sanlam Group."
