Investment ideas are generated internally with a strong emphasis on in-house deep dive research

*Portfolio yield is calculated by adding the net dividend amounts for all dividend types (excluding special dividends) that have gone 'ex' over the past 12 months based on the dividend frequency. This total excludes taxes, any related dividend fees or tax related credits. As the fund has not yet had a full 12 month record of distributions we are unable to show an accurate distribution yield value

The Fund has holdings which are denominated in currencies other than sterling and may be affected by movements in exchange rates. Consequently the value of an investment may rise or fall in line with the exchange rates. The fund can invest in derivatives. Derivatives are used to protect against fluctuations in currencies, credit risk and interest rates or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The Fund's expenses are charged to capital. This has the effect of increasing dividends while constraining capital appreciation. Part of the fund is invested in bonds. The government or company issuer of a bond might not be able to repay either the interest or the original loan amount and therefore default on the debt. This would affect the credit rating of the bond and, in turn, the value of the fund. Investment in bonds and other debt instruments (including related derivatives) is subject to interest rate risk. If long-term interest rates rise, the value of your shares is likely to fall. The value of this portfolio is subject to fluctuation and past performance is not necessarily a guide to future performance. The performance is calculated for the portfolio and the actual individual investor performance will differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All terms exclude costs. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. Do remember that the value of participatory interests or the investment and the income generated from them may go down as well as up and is not guaranteed, therefore, you may not get back the amount originally invested and potentially risk total loss of capital. Therefore, the Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Yield is gross and is calculated on historic dividend income from the preceding 12 months. Since the yield is based on past information it is provided as a guide and should not be taken as a guaranteed yield. If fees are charged to the capital account then this could reduce the amount invested. Income may fluctuate in accordance with market conditions and taxation arrangements. The Manager has the right to close any Portfolios to new investors to manage them more efficiently in accordance with their mandates. Collective Investment Schemes are traded at ruling prices and can engage in borrowing and scrip lending. Collective Investment Schemes (CIS) are generally medium to long term investments. A schedule of fees and charges and maximum commissions is available on request free of charge from the Manager, the Investment Manager or at www.sanlam.ie. AM1120(219)0221UK&SAInst

Management Team

Adour Sarkissian, CFA
Head of US Equities
20yrs' experience

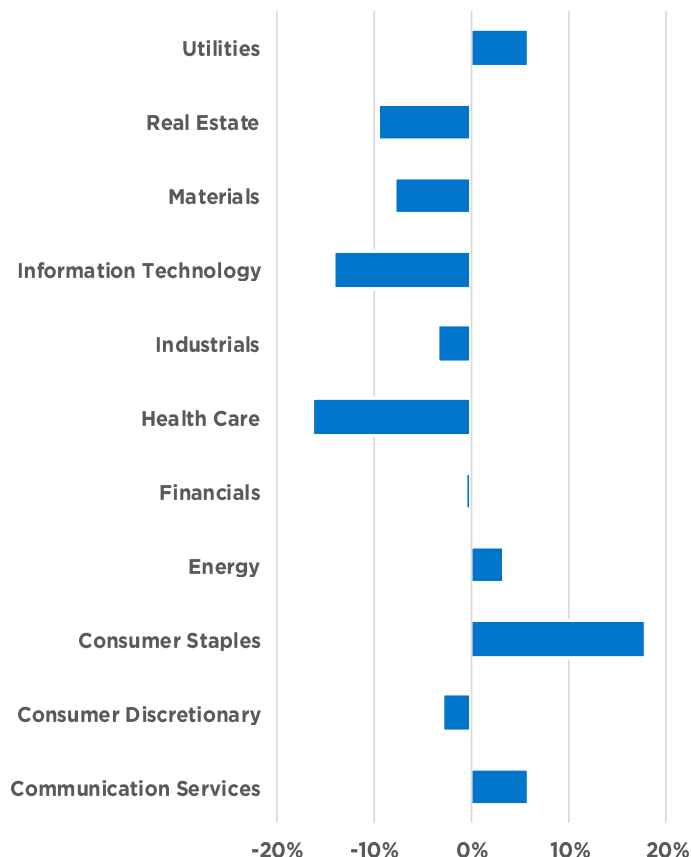

Adour joined Sanlam in October 2014* to establish the US equities proposition. Previously, he managed the award winning \$1.7bn US High Dividend Fund at ING. Adour started his career in 1999 with Exane before joining S&P Investment Services in 2001 and Capital at Work in 2005 where he managed his first fund. He studied at the American University of Beirut, the American University in Washington DC and the Dauphine University in Paris. He has an MBA in Finance and is a CFA charterholder.

Conor Walsh, CFA
Assistant Fund Manager
12yrs' experience

Before joining Sanlam in October 2014, Conor was with the Sanlam fund solutions business from 2010. Previously, he was at Bank of America Merrill Lynch where he was responsible for European and US equities settlements. Conor holds a BA in Economics and Mathematics from Trinity College Dublin and is a CFA charterholder.

Issued and approved by Sanlam Investments which is authorised and regulated by the Financial Conduct Authority. Sanlam Investments is the trading name for our two Financial Conduct Authority (FCA) regulated entities: Sanlam Investments UK Limited (FRN 459237), having its registered office at 24 Monument Street, London, EC3R 8AJ and Sanlam Private Investments (UK) Ltd (FRN 122588) having its registered office at Monument Place, 24 Monument Street, London, EC3R 8AJ. The Fund is a sub-fund of the Sanlam Universal Funds plc, a company incorporated with limited liability as an open-ended umbrella investment company with variable capital and segregated liability between sub-funds under the laws of Ireland and authorised by the Central Bank. The Fund is managed by Sanlam Asset Management (Ireland) Limited, Beech House, Beech Hill Road, Dublin 4, Ireland, Tel + 353 1 205 3510, Fax + 353 1 205 3521 which is authorised by the Central Bank of Ireland, as a UCITS Management Company, an Alternative Investment Fund Manager, and is licensed as a Financial Service Provider in terms of Section 8 of the South African FAIS Act of 2002. Sanlam Asset Management is a registered business name of Sanlam Asset Management (Ireland) Limited. Sanlam Asset Management has appointed Sanlam Investments UK Ltd as Investment Manager to this fund. This document is provided to give an indication of the investment and does not constitute an offer/invitation to sell or buy any securities in any fund managed by us nor a solicitation to purchase securities in any company or investment product. It does not form part of any contract for the sale or purchase of any investment. The information contained in this document is for guidance only and does not constitute financial advice. The fund price is calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income and expense accruals. Trail commission and incentives may be paid and are for the account of the manager. Performance figures quoted are from Sanlam Investments and are shown net of fees. Performance figures for periods longer than 12 months are annualized. NAV to NAV figures are used. Calculations are based on a lump sum investment. Please note that all Sanlam Investments Funds carry some degree of risks which may have an adverse effect on the future value of your investment. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription/application forms, all of which must be read in their entirety together with the Sanlam Universal Funds plc prospectus, the Fund supplement and the KIID. All these documents explain different types of specific risks associated with the investment portfolio of each of our products and are available free of charge from the Manager or at www.sanlam.ie. No offer to purchase securities will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision as not all investments are suitable for all investors.
