

Global High Quality Fund C Share

January 2019

Objective

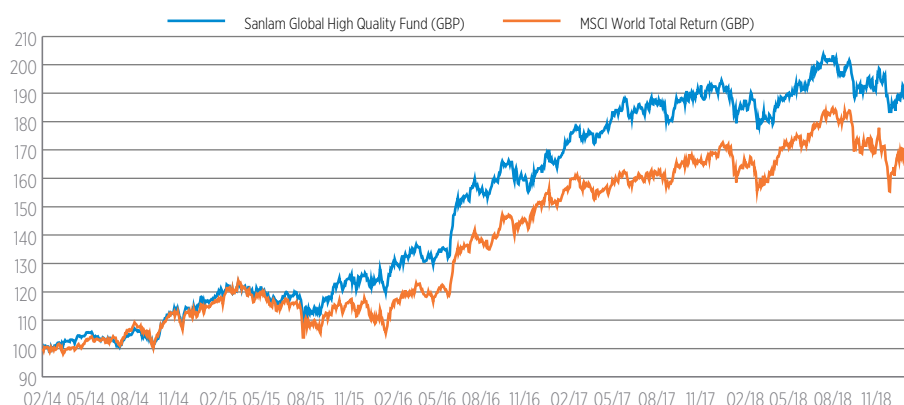

The Fund aims to produce compound total returns in excess of the MSCI World Index over the medium to long-term.

Strategy

The Fund is an actively managed portfolio of global equities with a high quality bias. The Fund is high conviction and benchmark agnostic, with sector and regional positioning driven by bottom-up stock selection. The Fund allocation to emerging market listed companies is limited to no more than 30% of the assets. The investment process is unconstrained, seeking to invest in companies with predictable revenue growth that produces sustainable economic value over the long-term. The Fund typically invests in companies with high returns on capital, low leverage, enduring businesses with a sustainable competitive advantage that produce significant free cash flow after capital expenditure. The Fund can hold up to 22% of its total net assets in cash or cash equivalents should the investment manager feel it appropriate.

The value of investments and the income from them may fall as well as rise and are not guaranteed. Investors may not get back the original amount invested. Past performance of a fund is no guarantee as to its performance in the future. Changes in exchange rates may have an adverse effect on the value, price or income of the product. As the fees and expenses of the fund will be charged to the capital of the fund, there is a greater risk that capital may be eroded and 'income' will be achieved by foregoing the potential for future capital growth of your investment and the value of future returns may also be diminished. This article is for information purposes and should not be treated as advice to buy or sell any particular investment. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription application forms, all of which must be read in their entirety together with the Prospectus, Fund Supplement and the Key Investment Information Document.
