

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS Sanlam UK Equity Growth Fund Class B Income Units [ISIN: GB00B43KQL71] Class B Accumulation Units [ISIN: GB00BHHMSJ25]

The Authorised Fund Manager of the Fund is Smith & Williamson Fund Administration Limited, part of the Smith & Williamson group.

Objectives and investment policy

The Fund aims to provide long term growth of capital, investing primarily in shares of companies traded in the UK that the Investment Manager believes have good prospects for growth.

The Fund may make other investments, including:

- bonds issued by governments and other organisations
- cash, deposits and money market instruments
- other investment funds
- warrants.

The Manager's investment policy may mean that at times it may be appropriate for the Fund not to be fully invested but to hold cash or near cash. In extreme market conditions, the Manager may raise or reduce the liquidity of the Fund from normal working levels.

The Fund may use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

The Fund may be exposed to selected companies that the Investment Manager believes can take advantage of economic conditions worldwide and this will include stocks in other markets of the world in addition to the UK. The Investment Manager will also invest in new issues and special situations, which will necessarily have a higher risk than investments in established companies.

Any income the Fund generates will be paid out to you.

You can buy and sell units on any working day in London.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is in a higher category because the price of its investments have risen or fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The price of gold or other resources may be subject to sudden, unexpected and substantial fluctuations. This may lead to significant declines in the values of any companies developing these resources in which the Fund invests and significantly impact investment performance.
- For full details on risk factors for this Fund, please refer to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.75%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution levy may be charged on a purchase or sale of units in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market unit price. Any dilution levy charged will be paid into the Fund.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.
- The ongoing charges figure is for the year ending 15/01/2021.
- The Fund's annual report for each financial year will include detail on the exact charges made.

Past performance

Source: FE fundinfo 2021

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 07/05/1987.
- Share/unit class launch date: 08/06/2011.
