Investment Objective and Policies

Investment Objective

The investment objective of the Fund is to provide capital growth over the long term.

Policy and Guidelines

The Fund will invest primarily in equity securities of companies listed or traded on the Recognised Exchanges set out in Appendix I of the Prospectus.

The Fund's investment policy will not be subject to any geographical or sector restrictions. The Investment Manager will invest in "high quality" investments. The Investment Manager defines a "high quality" investment as one with the some of the following characteristics: companies that typically have strong balance sheets enabling the company to service debt comfortably, high cash returns on assets, relatively low capital requirements, have a high market share in their chosen products or service lines, short customer repurchase cycles and long product cycles.

The securities will primarily be common stocks and other securities with equity characteristics including but not limited to preferred stocks, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that company) and convertible securities (such as convertible bonds and convertible preferred stocks). The Fund may also invest in depositary receipts.

The Fund may also invest indirectly in equity securities through holdings in UCITS funds domiciled in a Member State and open-ended collective investment schemes including exchange traded funds ("**CIS**") that satisfy the requirements of the Central Bank, such as Guernsey Class A Schemes, Jersey Recognised Funds and Isle of Man Authorised Schemes, including other schemes managed by the Manager or its affiliates subject to the investment restrictions below and set out in the Prospectus. Investments in units of UCITS and non-UCITS will be limited to collective investment schemes which adhere to similar restrictions as those applying to the Company and its funds. Investment in such collective investment schemes may not exceed 10% of the net asset value of the Fund, subject to a maximum of 10% in any one collective investment scheme.

The Fund shall also limit exposure to equity securities of companies listed or traded in countries considered to be emerging markets by the investment manager (including but not limited to countries included in the Morgan Stanley Capital International Emerging Markets Index which currently includes twenty-one emerging economies: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Morocco, Peru, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey) to 30% of its assets.

As the Fund may invest more than 20% of its assets in equity securities of companies listed or traded in countries considered to be emerging markets by the Investment Manager, an investment in the Fund should not constitute a substantial portion of an investment portfolio and may not be appropriate for all investors.

It is not the intention of the Fund to use financial derivative instruments and the Fund will not do so until a risk management process and updated Supplement has been submitted and cleared by the Central Bank.

Investment Restrictions

The general investment restrictions contained in the ~~the~~ Investment Restrictions+ section of the Prospectus shall apply. In addition, the following investment restrictions shall apply to the Fund:

1. Short selling of securities is not permitted.
2. The Fund may not be geared or leveraged through investment in any security.
3. The Fund will not invest more than 10% of its Net Asset Value in any one collective investment scheme.

4. The Fund will not invest more than 30% of its Net Asset Value in equity securities of companies listed or traded in countries considered to be emerging markets by the investment manager.
5. The Fund will not invest in securities that compel the Fund to accept physical delivery of a commodity.

Profile of a Typical Investor

The Fund is suitable for retail and institutional investors who are looking to gain exposure to high quality companies as detailed in the "Policy and Guidelines" section above. The Fund is expected to generate long-term capital growth and consistent growth in dividends over time. Therefore it is suitable for investors seeking income, capital growth and a balance between the two.

Efficient Portfolio Management

Securities Lending Arrangements

The Fund may enter into Securities Financing Transactions in the form of securities lending arrangements. Further details in respect of Securities Financing Transactions and applicable limits are set out in the Prospectus under the heading "Repurchase/Reverse Repurchase Agreements and Securities Lending". Securities lending is used to generate additional income for the Fund with an acceptably low level of risk. The Fund will not use financial derivative instruments until a risk management process has been submitted and cleared by the Central Bank.

Currency Hedging

The Fund may also use forward foreign exchange contracts which involve an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract. The Fund may enter into these contracts primarily for hedging purposes as the investments of the Fund may be acquired in a wide range of currencies including the Base Currency. Whilst hedging strategies are designed to reduce the losses to a Shareholder's investment if the currencies of assets which are denominated in currencies other than the Base Currency fall against that of the Base Currency, the use of hedging strategies may substantially limit holders of Shares from benefiting if the Base Currency falls against the currency in which the assets of the Fund are denominated. To the extent that hedging transactions are successful, Shareholders in the hedged Share class will not be affected if the value of the hedged class rises or falls against the Base Currency and/or currencies in which the assets of the Fund are denominated. For further information please see the "Hedged Classes" section of the Prospectus.

However, where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Investment Manager. Under-hedged positions will not fall short of 95% of the portion of the Net Asset Value of the Share class which is to be hedged and any under-hedged positions will be kept under review to ensure it is not carried forward from month to month. Over-hedged positions will not exceed 105% of the Net Asset Value and hedged positions will be kept under review to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Where, in respect of any Share class of the Fund, it is intended to conduct currency management transactions, the benefit and cost of such transactions shall accrue solely to the investors in such class and the Net Asset Value per Share of that class shall be increased/reduced as the case may be by the benefit/cost of any such currency management transactions. Any currency exposure of a class may not be combined with or offset against that of any other Share class of the Fund. The currency exposures of the assets of the Fund may not be allocated to separate Share classes.

Further detail on the requirements relating to such transactions and the Collateral Policy for the Fund is contained in the Prospectus.

Risk Management

The Manager on behalf of the Fund has filed with the Central Bank its risk management policy which enables it to accurately measure, monitor and manage the various risks associated with the use of financial derivative instruments for both efficient portfolio management and currency hedging purposes. The Manager will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. As set out in the risk management policy, the Manager will use the commitment approach for the purposes of calculating global exposure.

Listing

The Class C Income (GBP) Shares, Class C Accumulation (GBP) Shares, Class D Income (USD) Shares, Class D Accumulation (USD) Shares, Class E Income (USD) Shares and Class E Accumulation (USD) Shares issued in respect of the Fund were admitted to the Official List and traded on the Main Securities Market of the Irish Stock Exchange on 3 March 2014; the Class A Accumulation (GBP) Shares were admitted to the Official List and traded on the Main Securities Market of the Irish Stock Exchange on 2 January 2015 and the Class I Income (GBP) Shares were admitted to the Official List and traded on the Main Securities Market of the Irish Stock Exchange on 10 November 2015. The Class I Accumulation (GBP) Shares were admitted to the Official List and traded on the Main Securities Market of the Irish Stock Exchange on 27 June 2016; and the Class G Income (USD) and the Class G Accumulation (USD) Shares were admitted to the Official List and traded on the Main Securities Market of the Irish Stock Exchange on 12 July 2016.

An application has been made for the Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged Shares in the Fund to be admitted to the Official List and to trading on the Global Exchange Market of the Irish Stock Exchange.

Effective 27 November 2017, the listing of the Class C Income (GBP) Shares, Class C Accumulation (GBP) Shares, Class D Income (USD) Shares, Class D Accumulation (USD) Shares, Class E Income (USD) Shares, Class E Accumulation (USD) Shares, Class A Accumulation (GBP) Shares, Class I Income (GBP) Shares, Class I Accumulation (GBP) Shares, Class G Income (USD) Shares, Class G Accumulation (USD) Shares, Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged in the Fund was transferred from the Main Securities Market to the Global Exchange Market (~~GEM~~^{GEM+}) of the Irish Stock Exchange.

GEM is not a “regulated market” as defined under the Directive on Markets in Financial Instruments 2004/39/EC.

Neither the admission of the Shares to listing on the Official List and trading on the Global Exchange Market of the Irish Stock Exchange nor the approval of this Supplement pursuant to the listing requirements of the Irish Stock Exchange shall constitute a warranty or representation by the Irish Stock Exchange as to the competence of service providers to or any other party connected with the Fund, the adequacy of information contained in this Supplement or this Prospectus or the suitability of the Fund for investment purposes.

As of the date of this document, the Fund does not have any loan capital (including term loans) outstanding or created but unissued or any outstanding mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts, liabilities under

acceptance (other than normal trade bills) or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities which are material in nature.

As at the date of this Supplement, no Director nor their spouses nor their infant children or any person closely associated have any interest in the shares of the Fund or any options in respect of such capital.

Save as disclosed herein there has been no significant change and no significant new matter has arisen since the date of the Prospectus.

The Directors confirm that there has been no significant change in the financial or trading position of the Company since 31 December 2016, the date of the latest financial statements of the Company.

Investment Manager

The investment manager currently appointed to the Fund is:

Sanlam Private Investments (UK) Limited

Sanlam Private Investments (UK) Limited (**SPI**) is a company incorporated under the laws of England and Wales, and has its registered office at 16 South Park, Sevenoaks, Kent TN13 1AN. SPI is a discretionary portfolio management specialist, stock broking, wealth management and advisory investment specialist, with offices across the UK founded in 1987. In March 2008 it became a member of the Sanlam Group. Sanlam is a leading South African financial services business, listed on the Johannesburg and Namibian stock exchanges. As well as providing the backing of a large financial services operation, with over R1,385 billion (£85 billion) of assets under management (as at 30 September 2012), Sanlam's involvement allows SPI to enhance its investment service to existing clients and introducers, whilst maintaining the high level of personal service on which the business has been built. SPI's discretionary fund management currently manages approximately £2.5 billion of assets. SPI has an experienced investment and client management team over 50 people, with an average of 15 years' investment experience.

Borrowings

In accordance with the general provisions contained in the **Borrowing and Lending Powers** section of the Prospectus, the Fund may borrow up to 10% of its net assets on a temporary basis. Such borrowings are permitted only to meet the Fund's obligations in relation to (i) the administration of the Fund relating to purchase or sale transactions; and/or (ii) the redemption or cancellation of Shares in the Fund. Borrowings in relation to (i) above are only permitted for a period of up to 8 calendar days, and 61 calendar days in respect of (ii) in order to comply with the South African Financial Services Board and to allow for the Fund to be distributed to South African retail investors. However, at all times borrowings on behalf of the Fund will be in accordance with the Regulations and the requirements of the Central Bank.

Risk Factors

The risk factors set out in the **Risk Factors** section of the Prospectus apply to the Fund. In addition, the following risk factors apply to the Fund:

Segregated Liability between the Funds

Liabilities of one sub-fund of the Company will not impact on nor be paid out of the assets of another sub-fund of the Company. While the provisions of the Companies Acts 2014 provide for segregated liability between sub-funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly it is not free from doubt that the assets of any sub-fund may be exposed to the liabilities of other sub-funds of the Company. As of the date of the Prospectus the Directors are not aware of any existing or contingent liability of any sub-fund of the Company.

Political and/or Regulatory Risks

The value of the Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of

countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets.

Settlement and Clearing Risk

The trading and settlement practices on some of the exchanges or markets on which the Fund may invest may not be the same as those in more developed markets of western Europe and the United States. In particular, some or all of the following additional risks may be associated with settlement and clearing of securities transactions in emerging market countries. These additional risks include delays experienced in repatriation of sales proceeds due to local exchange controls, an uncertain legal and regulatory environment and the possibility that bargains may be settled by a free delivery of stock with payment of cash in an uncollateralised manner. That may increase settlement and clearing risk and/or result in delays in realising investments made by the Fund.

Conflict of Interest regarding the appointment of Investment Managers

The Manager may appoint Investment Managers to the Fund which may be subsidiaries, affiliates, associates or entities in which the Sanlam group have an economic interest.

Depository Risk

Local custody services in some of the emerging market countries in which the Fund may invest may not be the same as those in more developed market countries and there is a transaction and custody risk involved in dealing in such markets.

Emerging Markets

Investing in emerging markets involve additional risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) increased risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity and smaller capitalisation of securities markets; (v) greater volatility in currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on repatriation of invested capital and on the ability to exchange local currencies for US dollars; (viii) increased likelihood of governmental decisions to cease support of economic reform programmes or to impose centrally planned economies; (ix) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers; (x) less extensive regulation of the securities markets; (xi) longer settlement periods for securities transactions and less reliable clearance and custody arrangements; (xii) less protection through registration of assets and (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and protection of shareholders.

Legal Risk

Legal risk is the risk of loss due to unexpected application of a law or regulation, or because contracts are not legally enforceable or documented correctly in the context of financial derivative instruments.

Investments in Collective Investment Schemes

The Fund may invest a portion of its assets in CIS and investors should be aware of the potential exposure to the asset classes of those underlying collective investment schemes in the context of all of their investments.

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities or other instruments and there can be no assurance that the investment objectives will actually be achieved. In particular the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

Currency Risk

The net asset value per share will be computed in the base currency of the Fund, whereas the Fund's investments may be acquired in a wide range of currencies, some of which may be affected by currency movements of a more volatile nature than those of developed countries and some of which may not be freely convertible. It may not be possible or practical to hedge against the consequent currency risk exposure and in certain instances the Investment Manager may consider it desirable not to hedge against such risk. The Investment Manager may enter into cross currency hedging transactions.

Derivative Instruments

Derivative instruments (which are instruments that derive their value from another instrument or security) may be purchased or sold to manage risk, to hedge against fluctuations in securities prices or market conditions, or as a substitute for the purchase or sale of securities for efficient portfolio management purposes. Such transactions may include the purchase or sale of exchange traded futures. Transactions in derivative instruments involve a risk of loss or depreciation due to: unanticipated adverse changes in securities prices, the other financial instruments' prices or currency exchange rates; the inability to close out a position; imperfect correlation between a position and the desired hedge; tax constraints on closing out positions; risks relating to settlement default; legal risk and portfolio management constraints on securities subject to such transactions. Legal risk is understood to mean loss due to the unexpected application of a law or regulation. The loss on derivative instruments may substantially exceed an investment in these instruments. Transaction costs are incurred in opening and closing positions. The Fund's success in using derivative instruments to hedge portfolio assets depends on the degree of price correlation between the derivative instruments and the hedged asset. Imperfect correlation may be caused by several factors, including temporary price disparities among the trading markets for the derivative instrument, the assets underlying the derivative instrument and the Fund's assets.

Hedge Class Risk

The adoption of a currency hedging strategy for a Share class may substantially limit the ability of holders of such Share class to benefit if the currency of such Share class depreciates against the Base Currency of the Fund or against the currencies in which the assets of the Fund are denominated.

A class of Shares of the Fund may be denominated in a currency other than the Base Currency of the Fund or the currency in which the assets of the Fund are denominated. Changes in the exchange rate between the Base Currency or the currency/currencies in which the assets of the Fund are denominated and the denominated currency of a Share class may lead to a depreciation of the value of such Shares as expressed in the denominated currency. The Investment Manager may or may not try to mitigate their risk by using financial instruments. Investors should be aware that this strategy may substantially limit Shareholders of the relevant class from benefiting if the denominated currency falls against the Base Currency and/or the currency/currencies in which the assets of the Fund are denominated. In such circumstances Shareholders of the class of Shares of the Fund may be exposed to fluctuations in the Net Asset Value per Share reflecting the gains/loss on and the costs of the relevant financial instruments.

Efficient Portfolio Management Risk

The Company on behalf of the Fund may enter securities lending arrangements for efficient portfolio management purposes. Investors should be aware that from time to time, the Fund may engage with securities lending agents that are related parties to the Depositary or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary or other service provider in respect of the Company. Please refer to the section entitled "Portfolio Transactions and Conflicts of Interest" in the Prospectus for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

Reinvestment of Cash Collateral Risk

As the Fund may reinvest cash collateral received, subject to the conditions and within the limits laid down

by the Central Bank, the Fund will be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

Securities Lending Risk

There are risks associated with the Fund engaging in securities lending. As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. A securities lending transaction will involve the receipt of collateral. However there is a risk that the value of the collateral may fall and the Fund suffer loss as a result.

Dividend Policy

The Directors may declare such dividends during the year as they in their sole and absolute discretion may determine provided that such declaration of dividends is notified in advance to Shareholders. It is the Directors current intention to declare dividends for the Class C Income (GBP) Shares, the Class D Income (USD) Shares, the Class E Income (USD) Shares, the Class I Income (GBP) Shares and the Class G Income (USD) Shares on a half yearly basis. Under the Articles of Association, dividends may be paid out of the profits, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and /or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the Fund.

It is not the current intention of the Directors to declare a dividend in relation to the Class A Accumulation (GBP) Shares, Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class B Accumulation (USD) Shares, Class C Accumulation (GBP) Shares, Class D Accumulation (USD) Shares, Class E Accumulation (USD) Shares, Class I Accumulation (GBP) Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged Shares or Class G Accumulation (USD) Shares. The net income attributable to these Shares shall be retained within the Fund and the value of the Shares shall rise accordingly.

It is the intention of the Company to seek UK "reporting fund" status in respect of the Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged Shares, from the launch of the Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged Shares. This is in addition to the Class A Accumulation (GBP) Shares, Class C Income (GBP) Shares, Class C Accumulation (GBP) Shares, Class I Income (GBP) Shares and Class I Accumulation (GBP) Shares, which have existing UK "reporting fund" status. In broad terms a "reporting fund" is an offshore fund that meets certain upfront and annual reporting requirements to HM Revenue & Customs and its Shareholders. Once reporting fund status is obtained from HM Revenue & Customs for the relevant classes it will remain in place permanently, provided the annual requirements are complied with. The reported income will be deemed to arise to UK Shareholders on the date the report is issued by the Company.

Investors should refer to their tax advisors in relation to the implications of these Share classes obtaining such status and any payment of dividends. Please see the section entitled "United Kingdom" under the "Taxation" section of the Prospectus for further details.

Key Information for Buying and Selling

Initial Offer Period

The Initial Offer Period for the Class A Accumulation (USD) Hedged Shares, Class A Accumulation (EUR) Hedged Shares, Class A Accumulation (CHF) Hedged Shares, Class I Accumulation (USD) Hedged Shares, Class I Accumulation (EUR) Hedged Shares and Class I Accumulation (CHF) Hedged Shares begins at 9.00am on 28 February 2018 and will close at 5.00pm on 27 August 2018 (as may be shortened or extended by the Directors in accordance with the Central Bank's requirements).

Class A Accumulation (GBP) Shares, Class C Income (GBP) Shares, Class C Accumulation (GBP) Shares, Class D Income (USD) Shares, Class D Accumulation (USD) Shares, Class E Income (USD) Shares, Class E Accumulation (USD) Shares, Class I Income (GBP) Shares and Class I Accumulation (GBP) Shares are currently in issue and are available for subscription at the Net Asset Value per Share of the relevant Class. Class C, D and E shares are only available to those investors who have a separate investment management mandate with the Investment Manager.

Class G Accumulation (USD) Shares	None

The directors may waive the Preliminary Charge in whole or in part. This section should be read in conjunction with the Charges and Expenses section below.

Repurchase Fee

No Repurchase Fee will be charged in respect of any of the Share classes of the Fund.

Settlement Date

In the case of applications, close of business on the Business Day preceding the relevant Dealing Day (or up to four Business Days after the relevant Dealing Day as may be permitted by the Manager at its absolute discretion). In the case of repurchases, four Business Days after the relevant Dealing Day or, if later, four Business Days after the receipt of the relevant duly signed repurchase documentation.

Valuation Point

12 noon (South African time) on the relevant Dealing Day.

Charges and Expenses

Fees of the Manager, the Depositary, any Investment Transition Manager, the Administrator, the Registrar and Transfer Agent, the Investment Manager and the Distributors.

The Manager will be entitled to receive from the Company an annual fee as a percentage of the net assets of each relevant Class of Shares as set out below. These fees will accrue and be calculated on each Dealing Day and be payable monthly in arrears. The Manager will be responsible for all its own out of pocket costs and expenses. The Manager will pay out of its fees, the fees and expenses of the Administrator, the Distributors and the fees of the Investment Manager.

General

The Registrar and Transfer Agent will be entitled to receive from the Company out of the assets of the Fund an annual fee which will not exceed US\$2,500 plus US\$1,000 for each additional share class greater than four, together with reasonable costs and expenses incurred by the Registrar and Transfer Agent in the performance of its duties as Registrar and Transfer Agent of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Registrar and Transfer Agent shall also be entitled to be reimbursed out of the assets of the Fund all agreed transaction charges (which will be charged at normal commercial rates).

The Depositary will be entitled to receive from the Company out of the assets of the Fund an annual trustee fee which will not exceed 0.02% of the net assets of the Fund (plus VAT, if any), together with reasonable costs and expenses incurred by the Depositary in the performance of its duties as Depositary of the Fund. These fees shall accrue and be calculated on each Dealing Day and shall be payable monthly in arrears. The Depositary shall also be entitled to be reimbursed out of the assets of the Fund all agreed safekeeping fees, expenses and all agreed transaction charges (which will be charged at normal commercial rates).

The cost of establishing the Fund, obtaining authorisation from any authority, regulatory or other body, listing the Shares on the Irish Stock Exchange, filing fees and the preparation and printing of this Supplement, marketing costs and the fees of all professionals relating to it, which are estimated not to exceed " 25,000 will be borne by the Fund and amortised over the five years following the first issue of Shares in the Fund.

This section should read in conjunction with the section entitled "Charges and Expenses" in the Prospectus.

Material Contracts**Investment Management Agreement**

The Investment Management Agreement dated 20 February 2012 between the Manager and SPI (as amended) (the "**Agreement**") provides that the appointment of SPI will continue in force unless and until terminated by either party giving not less than 30 days' notice. However, in certain instances the Agreement may be terminated without a minimum period of notice by either party. The Agreement limits the liability of SPI and the Manager to losses arising by reason of fraud, bad faith, negligence, wilful default or wilful misfeasance of SPI in the performance or non-performance of their duties. The Agreement also provides that each party will indemnify the other party (the non-defaulting party) to the extent that any claims, reasonable costs, direct damages, direct losses or expenses are attributable to the fraud, bad faith, negligence, wilful default or wilful misfeasance by the other party (the defaulting party) in the performance or non-performance of its duties.
